The screenshot shows a voting interface for the 'Best of Industry Award' in the 'Tuning - machining technology' category. At the top, there is a banner with the award logo and the 'MM MaschinenMarkt' logo. Below the banner, the category name 'Tuning - machining technology' is displayed. A text block instructs users to vote anonymously by clicking on gray boxes to assign 1st, 2nd, or 3rd place. It also mentions that repeated clicks can change the award. Below this, a list of nominees is provided, each with a gray box for voting, a description of the product, the company name, and a link for more information. The nominees are: 1. High Dynamic Turning (HDT) and FreeTurn Tools by CERATIZIT Germany GmbH. 2. ProtectLine (V1.0) by CHIRON Werke GmbH & Co. KG. 3. XEBEC Back-Burr Cutter & Path by Kempf GmbH. To the right of the text are three small images: a close-up of a machine tool, a robotic arm, and two views of a cylindrical part. At the bottom, there are navigation buttons: a left arrow and a right arrow labeled 'Next'. Logos for 'MM MaschinenMarkt' and 'VOGEL COMMUNICATIONS GROUP' are at the bottom center.
